Who are we?

We are Ellen and Ronald Kuyper and we live in Vorden, The Netherlands.

Last year we had an outbuilding on our property which now serves as a B&B where we also regularly host family, befriended couples and guests.

We see our home as a place of healing and recovery for ourselves and for everyone we may receive.

The project

Over the past 25 years we have often spent holidays in Spain, particularly in Andalucia.

*"A place among
the
olive groves
of Andalusia
for healing and
recovery"*

Somewhere in this period, it grew in us the desire to create a place for healing and (spiritual) recovery for people who, in one way or another, are wounded in life or need a period of rest.

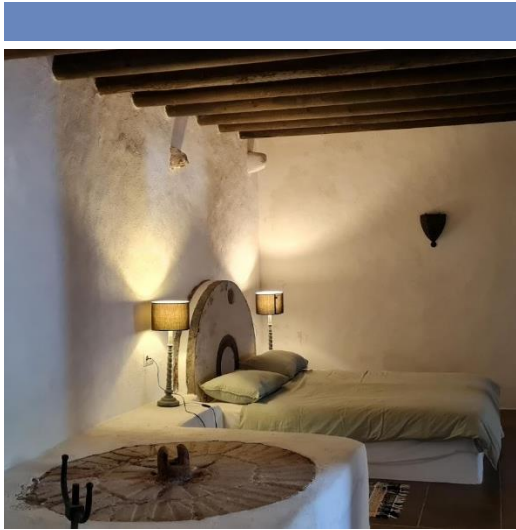

These can be people who are in the frontlines, such as missionaries, ministers and pastors and/or other spiritual brothers and sisters.

Last year this idea took further shape in our minds and we eventually decided to purchase a property in the triangle of Cordoba, Granada and Jaén and about two hours drive from Malaga.

It is a beautiful place between the olive groves where a dirt road ends at our house.

The property

The property is a converted flour mill that lies in a valley along a stream. In the period of 2002 -2006 it was renovated.

The house

We have several possibilities: room for singles or couples and also space for a family. There is also a lot of private space in the house that can be used for counseling or debriefing.

The garden and the swimming pool are for everyone to use.

You should count with some insurance in case of needing health assistance or damaging something in the property.

From the end of 2023 we will also offer debriefing meetings.

What is our vision?

Through our own healing process the desire to see others also recover has grown in us. We believe that Jesus is the only One who can heal us totally.

Because we have to be in the Netherlands at this moment we want to start this project with people who would like to help.

Helping hands are very welcome to make the house and property a beautiful place where everyone feels at home.

For this, we will work in cooperation with the organization InToMission based in The Netherlands. Debriefing is possible in Dutch and English. For the future we also want to do debriefing in Spanish.

More information on the website of InToMission. www.intomission.nl

Because we want to break even we are thinking of a donation, with a target amount of 250 euro per person per week, which includes meals.

Finances however should not be a limitation to come and if there are any questions about this, please contact us.

If it appeals to you, please
contact us:

We have a managing couple living in
the house, Rodrigo and Sophie.

They make you feel welcome.

Everyone in the house comes together for
dinner. Also we ask the guests to help
with daily tasks like cooking and cleaning.
If everyone gives a hand we can keep the
house and garden nice and clean
together.

With everyone who is interested we will
do a videocall in advance to
see what is necessary.
